

XENVYA

CONSULTING LLC

GOVCON CAPABILITY STATEMENT

Enterprise architecture. Application modernization. Systems integration.

Federal, state, and local government | Prime contractor teaming

Virginia, USA | contact@xenvya.com | xenvya.com/govcon

CORE COMPETENCIES

Enterprise Architecture and Modernization

Legacy-system assessments, target architectures, phased modernization roadmaps, and technical governance.

Application Development and Sustainment

Agile software development, application enhancements, testing, and production issue resolution.

Cloud Migration and Systems Integration

Cloud and hybrid architecture, migration planning, secure application interfaces, integration testing, and cutover planning.

Data Engineering and Workflow Automation

Data sourcing and integration, modernization of processing workflows, and automation of manual handling.

AI Evaluation and Implementation Support

Use-case assessment, bounded prototypes, AI-assisted development, and ongoing research into agentic AI implementation.

SELECTED PRINCIPAL EXPERIENCE

Experience gained in prior professional roles; not presented as Xenvya corporate past performance.

- Architected and led implementation of cloud solutions supporting **\$8 billion in annual loan originations** and loan management for a **\$22 billion portfolio**.
- Led architecture and control alignment for **SOX-compliant systems**, addressing Equal Credit Opportunity Act (ECOA) fair lending and Fair Credit Reporting Act (FCRA) requirements, including data integrity, separation of duties, and audit trails.

PRINCIPAL-LED DELIVERY

Terrance Addison

Managing Principal & Lead Architect

28 years of industry experience spanning software engineering and solution architecture across regulated enterprise environments.

COMPANY INFORMATION

EIN: 85-2284262

CAGE: 8PG51

NAICS codes

541512 (Primary)

541511, 541519, 518210, 541611

Relevant PSC codes

DA01 - Application development support

DF01 - IT management support

DB02 - Compute support, non-HPC

Service classifications aligned with Xenvya capabilities.

TEAMING

Available for subcontracting and teaming discussions with prime contractors seeking defined architecture, integration, modernization, and engineering work packages.
